Certifications

Elopak holds the certifications listed in the table below.

Certifications	Description
Forest Stewardship Council (FSC™)	100% of Elopak’s plants and sales units are certified. This enables us to offer FSC™ labeled cartons worldwide.
ISCC+ (International Sustainability and Carbon Certification)	Three Elopak plants and sales units are certified to ensure chain-of-custody certification. This enables us to offer cartons featuring certified circular and bio-circular polyethylene (polymers).
ISO 9001 (Quality management)	100% of Elopak’s plants are certified.
ISO 14001 (Environmental management)	Five Elopak plants are certified. This ensures good management practices and a strong environmental focus, and best practice is spread to other noncertified sites.
ISO 45001 / OHSAS 18001 (Occupational health and safety management)	Five Elopak plants are certified. This verifies good health and safety practices and is an addition to our internal safety policies and practices which are based on the ISO framework.

UN Sustainable Development Goals

Sustainable Development Goals (SDGs). The 17 goals, with a total of 169 targets, cover key areas to ensure people can thrive and prosper on our planet. We have identified four key SDGs for Elopak.

Goal 8
Decent work and economic growth

We create work for many people in our business and supply chain. Historically, we have had a strong focus on labor and ethical practices in our company. We now further increase this focus throughout our supply chain and build the skills and employability of our employees.

Goal 12
Responsible consumption and production

We are dependent on renewable natural resources, and the way we source fiber is a great opportunity for Elopak to contribute to sustainable forests. We have targets for sourcing certified raw materials and helping improve recycling in all steps of our value chain.

Goal 13
Climate action

We take urgent action to combat climate change and its impact. Elopak is fully aware of our responsibility in the global increase of greenhouse gas emissions. We work to reduce our emissions from our operations and supply chain, and with ambitious Science-Based Targets in place, we commit to reducing our impact further.

Goal 17
Partnerships for the goals

We cannot achieve the SDGs working alone, and we have been working with suppliers and customers to reduce emissions and the use of raw materials.

External engagement

Elopak is member of trade associations and works with non-governmental and international organizations, certification bodies, and multi-stakeholder initiatives to promote sustainable practices and continuously improve our products and transparency practices.

Association / organization	Description
UN Global Compact	The largest corporate sustainability initiative in the world. It acts as a universal call to companies to align their operations and strategies focusing on ten universally accepted principles in the areas of human rights, labor, environment, and anticorruption, whilst encouraging member parties to take action in support of UN goals and issues embodied in the SDGs.
FSC™ – Forest Stewardship Council™	Working to ensure sustainable forest management practices globally.
ISCC – International Sustainability and Carbon Certification	Working to ensure sustainable practices behind renewable feedstocks for plastics
ASI – Aluminium Stewardship Initiative	A global non-profit standard setting and certification organization. The organization aims to maximize the contribution of aluminium to a sustainable society. Members include producers, users, and stakeholders in the aluminium value chain.
RE100	A global initiative of companies committing to sourcing 100% renewable electricity.
EcoVadis	The world’s largest and most trusted provider of business sustainability ratings.
Sedex	One of the world’s leading ethical trade service providers.
FBCA – Food and Beverage Carton Alliance	A global trade association formed in 2025 from the Alliance for Beverage Cartons and the Environment (ACE) and EXTR:ACT, dedicated to promoting beverage cartons as renewable, recyclable, and circular packaging solutions through advocacy, innovation, and industry collaboration

Association / organization	Description
Carton Council	An industry association working to drive carton recycling in North America.
AARC – Action Alliance for Recycling Beverage Cartons	An Indian industry coalition formed to advance beverage carton collection and recycling through stakeholder collaboration and sustainable waste management advocacy.
4evergreen	A cross-industry alliance of over 100 members representing the entire lifecycle of fibre-based packaging – from forests to producers, designers, brand owners and recyclers.
HolyGrail 2.0	A cross value chain initiative working to improve packaging recycling through the use of pioneering digital watermarks.
Europen	European trade association representing the packaging industry value chain.
National associations	Other national associations: • ACN France • FKN Germany • Getränke Karton Austria • Getränke Karton Switzerland • HEDRA Netherlands • IKSZ Hungary • ProKarton Poland
CDP – Carbon Disclosure Project	A non-profit charity that runs the global disclosure system for investors, companies, cities, states and regions to manage their environmental impacts.
